Durkin facilitated discussion about an issue that was previously discussed and was not on the agenda. In order to facilitate effective board meetings, Durkin outlined the following:

- The board recently adopted a process for submitting questions relating to the financials to the Treasurer prior to board meetings so that any research that needs to be done to answer
any questions can be completed prior to the meeting and so that board meeting time is used effectively. Durkin requests that board members follow a similar process with issues that are not on the agenda. To achieve that end, Durkin requests Board members, please forward any items you wish to be included on a board agenda to the President, Nancy Durkin. Durkin will put the item on the appropriate agenda. Durkin will ask the board to vote on the submitted issue to determine if the board is interested in entertaining the issue for discussion. If the vote is yes; the item will be put on an agenda and discussion will be limited to 10 minutes. The board may vote to extend the discussion beyond that time.

Durkin facilitated further discussion, suggesting that if an issue has previously been discussed, resolved, and or voted on; it is not a good use of the Board’s time to revisit it. Durkin also reminded the board that it is essential to understand that board members will not go out on their own as representatives of the FFL board; the board must act as the governing body of the FFL, not as individuals. All board member activity on behalf of the FFL must be approved by the board. Longstreet commented on the importance of raising issues, but also on the importance of following a process and sharing information according to the process. Durkin reiterated that any paperwork associated with an open issue should be forwarded directly to Durkin, who will share the information with the ED and Board members. The agenda format will be edited to reflect this process.
